

Functional & Performance Testing Template

Model Performance Test

Date	3 October 2026
Team ID	SWTID-2026-1299
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	

Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	UI Policy & Field Visibility Validation (e.g., Urgency, Mandatory state)	Set incident state/urgency condition and verify field mandatory & visibility properties.	Urgency field dynamically becomes mandatory and visible on UI Policy trigger.	Field properties updated dynamically as defined.	Pass
FT-02	onChange Client Script Validation (e.g., Short Description / Category change)	Change field value on the Incident form and observe real-time field/message updates.	Accepts valid selection/input and shows relevant alert/message on change.	Message displayed and target field updated.	Pass
FT-03	onSubmit Client Script Validation (e.g., Form submission verification)	Fill in complete incident form details and click 'Submit' / 'Save'.	Form submits if valid; blocks submission and shows error message if required fields are missing.	Blocked on error, allowed on valid input.	Pass
FT-04	onCellEdit Client Script Validation (e.g., Incident list view editing)	Attempt inline editing of restricted fields directly from the Incident list view.	List edit allows valid changes or blocks unverified inline updates with error popup.	Validation check executed on cell edit.	Pass
PT-01	Response Time Test (Client Script Execution)	Use browser developer tool timer to measure Client Script execution on form load/change.	Execution time should be under 3 seconds.	Executed in < 1 second.	Pass
PT-02	Script Speed & Load Test	Trigger multiple field changes rapidly on the Incident form.	Form performance should not slow down or freeze.	Form remained responsive	Pass

				without delay.	
PT-03	Form Load & Policy Render Test	Open multiple Incident records in quick succession and verify script rendering.	Should work smoothly without browser freezing or script errors.	Loaded smoothly without errors.	Pass
